About Me

UI/UX Designer and aspiring Product Designer with hands-on experience designing web and mobile experiences through user research, design thinking, user flows, wireframes, prototyping, and high-fidelity UI in Figma. Interested in solving user problems and creating scalable, intuitive digital products through an iterative design process.

Experience

Product Designer — Independent Projects

2025–2026

- Designed web and mobile product experiences from problem definition through high-fidelity UI.
- Created user flows, wireframes, prototypes, and responsive interfaces in Figma.
- Conducted user research and usability testing to identify design improvements.
- Iterated designs based on user feedback and usability findings.

Projects

Workflow Automation - UX/UI Case Study

NEXUS – is a Unified Generative AI Platform designed to streamline content creation, campaign management, and workflow automation within a single ecosystem.

Gamified Website - UX/UI Case Study

ASSASSINS'S CREED– This project is a cinematic, scroll-based gaming website inspired by the Assassin's Creed universe.

AR - Based skin care analysis - UX/UI Case Study

LUMI – is an AR - powered skincare mobile application designed to help users understand their skin through intelligent analysis and personalized recommendations.

Interactive Universe Explorer for Vision Pro - UX/UI Case Study

COSMOS – Apple Vision Pro concept creating a cinematic mixed-reality space exploration experience at human scale.

Education

Bachelor of Computer Science Engineering 2021 - 2025

CSI College of Engineering , Ooty

UI/UX Design - Product Thinking

2026

Wed D School , Chennai

Skills

- User Research
- Problem Definition
- Wireframing
- Ideation
- Information Architecture
- Iteration
- User Journey Mapping
- Prototyping
- Interaction Design
- Usability Testing
- Responsive design
- Design System
- UI Patterns

Tools

- Figma
- Figjam
- Photoshop
- Illustrator
- Chatgpt
- Claude
- Sketch
- Lovable AI
- Google Stitch

Soft Skills

- Problem Solving
- Strategic Thinking
- Empathy
- Critical Thinking
- Communication
- Team Collaboration
- Time Management
- Adaptability
- Quick Learner
- Creative Thinking
- Continuous Learning
- Mindset
